Austin, TX | 512.808.8745 | seguin.alex@gmail.com | linkedin.com/in/eXeL-AI
Portfolio: Security-2525 | Celestial-2525 | Patent US20220164611A1

PROFESSIONAL SUMMARY

Senior Global Technical Product Manager with 15+ years leading perception, navigation, AI, sensor fusion, and autonomy product roadmaps across defense and industrial markets. Expertise includes product strategy, simulation, computer vision, cross-functional leadership, and commercialization of advanced technologies.

PROFESSIONAL EXPERIENCE

U.S. Army Reserve - Staff Sergeant (SSG), 14G Air Defense

September 2025 - Present | Active SECRET Security Clearance

- Completed 14G training on Sentinel radar and C2 systems; gained hands-on perception, tracking, and safety-critical decision experience.
- Led small-unit operations requiring rapid assessment of real-time sensor data in dynamic environments.

AI/ML Technology Solutions

Technology and Innovation Director | Aug 2020 - Present

- Supported Athena AI market entry and Teal-2 launch through product and business development leadership.
- Built Shield AI's first \$25M I-R&D; STRAP and supported Series E fundraising.
- Owned Sensor Fusion AI-Kit roadmap and edge-to-cloud perception systems.
- Founded eXeL AI and developed CNN-based Sensor Fusion educational platform.

FLIR Systems

Product Manager - R&D; Innovation | Oct 2019 - Jul 2020

- Managed \$200M imaging R&D; portfolio with \$25M cost savings.
- Established executive metrics for CEO, CFO, and CTO.
- Led strategic integrations with Amazon and Boston Dynamics.

Fluke Corporation

Product Manager | 2017 - 2018

- Launched 15+ thermal and acoustic imaging products globally.
- Defined VOC, product strategy, and commercialization plans.

Honeywell UOP

Strategy and Growth Manager | 2012 - 2017

- Led STRAP and AOP planning for a \$3B business.
- Secured \$65M BTX contract through technical commercialization.
- Coordinated strategy across eight global business units.

U.S. Air Force - Technical Sergeant (TSgt)

2008 - 2017

- Led C-5 Galaxy maintenance teams under Active Secret Clearance while improving mission readiness.

SELECTED AI PROJECTS

- **Security-2525:** Built a MIL-STD-2525 autonomous command interface for sensor fusion and mission operations.
- **Celestial-2525:** Developed a spatial navigation and orbital simulation platform.
- **Sensor Fusion App:** Designed a CNN-based edge perception platform (Patent US20220164611A1, cited by Apple).

EDUCATION

AI/ML Certificate - UT Austin McCombs

Business Analytics Certificate - Harvard University

MBA - Auburn University

B.S. Chemical Engineering - The University of Texas at Austin (E.I.T.)

TECHNICAL SKILLS

Technical Product Management | Sensor Fusion | Computer Vision | CNNs | AI/ML | Python | TensorFlow | Agile | Jira | Tableau | Power BI | Salesforce | SAP
