Robust Stage-Gate: Collaborative Input Improves NPD Success

Project Ad-Fusion

Cloud & Edge AI Marketing Platform

Today

- Generic advertisements with limited personalization capabilities.
- Manual navigation and signage within retail environments.
- Promotions and discounts broadly distributed, lacking customization.

Future

- Personalized, dynamic ads tailored to individual preferences.
- Interactive, AI-driven guidance to specific stores and products.
- Customized promotions directly linked to shopper's interests and behaviors.

Customer CONOPS: *Project Ad-Fusion*

Research/Demo

Stage: *Planning*

CONOPS	
	1 Collect and Analyze Data: Gather real-time foot traffic and demographic information.
	2 Ad Customization: Design personalized ads based on demographic insights and preferences.
	3 Engage Customers: Display targeted ads on kiosks; assist and guide customers.
	4 Promote Discounts: Offer QR discounts based on customer interest and engagement.
	5 Gather Feedback: Collect customer and sales associate feedback on ad relevance.
	6 Monitor and Optimize: Analyze ad performance, customer engagement, and sales data.
	7 Adjust Strategies: Refine marketing and operational strategies to enhance engagement and sales.
Future Capabilities	Learn and Adapt: Improve targeting algorithms for better prediction and personalization.

Work - Flow by Persona: *Ad - Fusion*

Project #: 24.004W

Research/Demo

Stage: *Planning*

Personas

Store / Brand Manager

- Maximize foot traffic and sales revenue.

Digital Marketing Manager:

- Enhance ad engagement and conversion rates.

Onsite Sales Associate:

- Elevate customer experience and facilitate sales.

Target Customer:

- Enjoy personalized ads and shopping discounts.

IT Integrator / Dispatch:

- Ensure seamless system functionality and updates.

Customer Pain Points: *Project Ad-Fusion*

Business: eXeL AI

Project #: 24.004W

 Personas	 Pain Points 
Store / Brand Manager • Maximize foot traffic and sales revenue. Digital Marketing Manager: • Enhance ad engagement and conversion rates. Onsite Sales Associate: • Elevate customer experience and facilitate sales. Target Customer: • Enjoy personalized ads and shopping discounts.	Store / Brand Manager • Inaccurate foot traffic and demographic data. • Low engagement with in-store advertisements. • Difficulty in measuring ad impact on sales. Digital Marketing Manager: • Challenges in targeting ads effectively. • High costs of ad content production. • Limited feedback on digital campaign success. Onsite Sales Associate: • Inconsistent customer interest in promotions. • Lack of personalized selling points. • Difficulty tracking discount code redemption. Target Customer: • Overwhelming, irrelevant advertisement exposure. • Difficulty navigating to interested stores. • Limited personalized discount offerings.

Customer Problem Statement: *Project Ad-Fusion*

Business: eXeL AI

Project #: 24.004W

1	Problem Statement	- Retailers struggle to effectively engage and guide customers to products they want, impacting sales and customer satisfaction.
2	Customer Outcomes	- Enhanced personalized shopping experiences with targeted advertisements. - Increased convenience in finding products and navigating stores. - Greater access to tailored discounts and promotions.
3	Customer Why's	- Desire for a shopping experience that caters to personal preferences. - Need for efficient, stress-free navigation within retail spaces. - Want for exclusive deals and promotions that are relevant.
4	Problems with the Status Quo	- Generic advertising fails to engage diverse customer interests. - Inefficient store layouts and signage frustrate customers. - Limited personalization in offers and promotions.

Project Overview

Project Summary

- AdFusion is an innovative retail enhancement platform leveraging edge AI to analyze foot traffic, optimize ad targeting, and boost store engagement and revenues.
- In 2024, AdFusion aims to initiate its Beta Launch, focusing on introducing smart kiosks and developing a scalable system model. The launch will include diverse operational levels from basic to advanced neural net processors, ensuring tailored experiences for customers and actionable insights for retailers globally.
